

Core CDEs and Outcome Measures for TBI Research

CDEs – All Ages	
Birth date	Injury date time
Ethnicity USA category	TBI type
Race USA category	Injury ICD external cause code
Gender Type	ICD revision number
Education year count	Subarachnoid hemorrhage indicator
Medical history condition SNOMED CT code	Loss of consciousness duration range
Medical history condition text	Post traumatic amnesia duration range
	Imaging brain assessment result
CDEs – Adult Specific	CDEs – Pediatric Specific
Employment Status	Education school participation status
Outcome Measure – Adult Specific	Outcome Measure – Pediatric Specific
Glasgow Outcome Scale Extended (GOS-E) - score	Glasgow Outcome Scale Extended (GOS-E) Pediatric Revision
